

IWC'S 2022 TARGETS ARE:

Progress Report November 2021

ONE OF OUR SPECIALLY TRAINED WATCHMAKERS EXAMINES A MOVEMENT.

Achieve RJC chain of custody certification of watch components.

BECAUSE WE CARE ABOUT WHAT YOU WEAR - DOWN TO THE SMALLEST DETAIL.

100%

BEG JUNE 2020 - MAY 2022

WHY DO WE HAVE THIS TARGET?
To ensure we are working with trusted suppliers and that our watch components can be traced to their origins.

HOW DID WE REACH THIS TARGET?
We were audited to the stringent Chain of Custody (CoC) standard by the Responsible Jewelry Council, and we only source our materials from suppliers who have achieved the same certification.

Purchase 100% renewable energy globally.

BECAUSE THE ONLY ACCEPTABLE ENERGY REGENERATES NATURALLY.

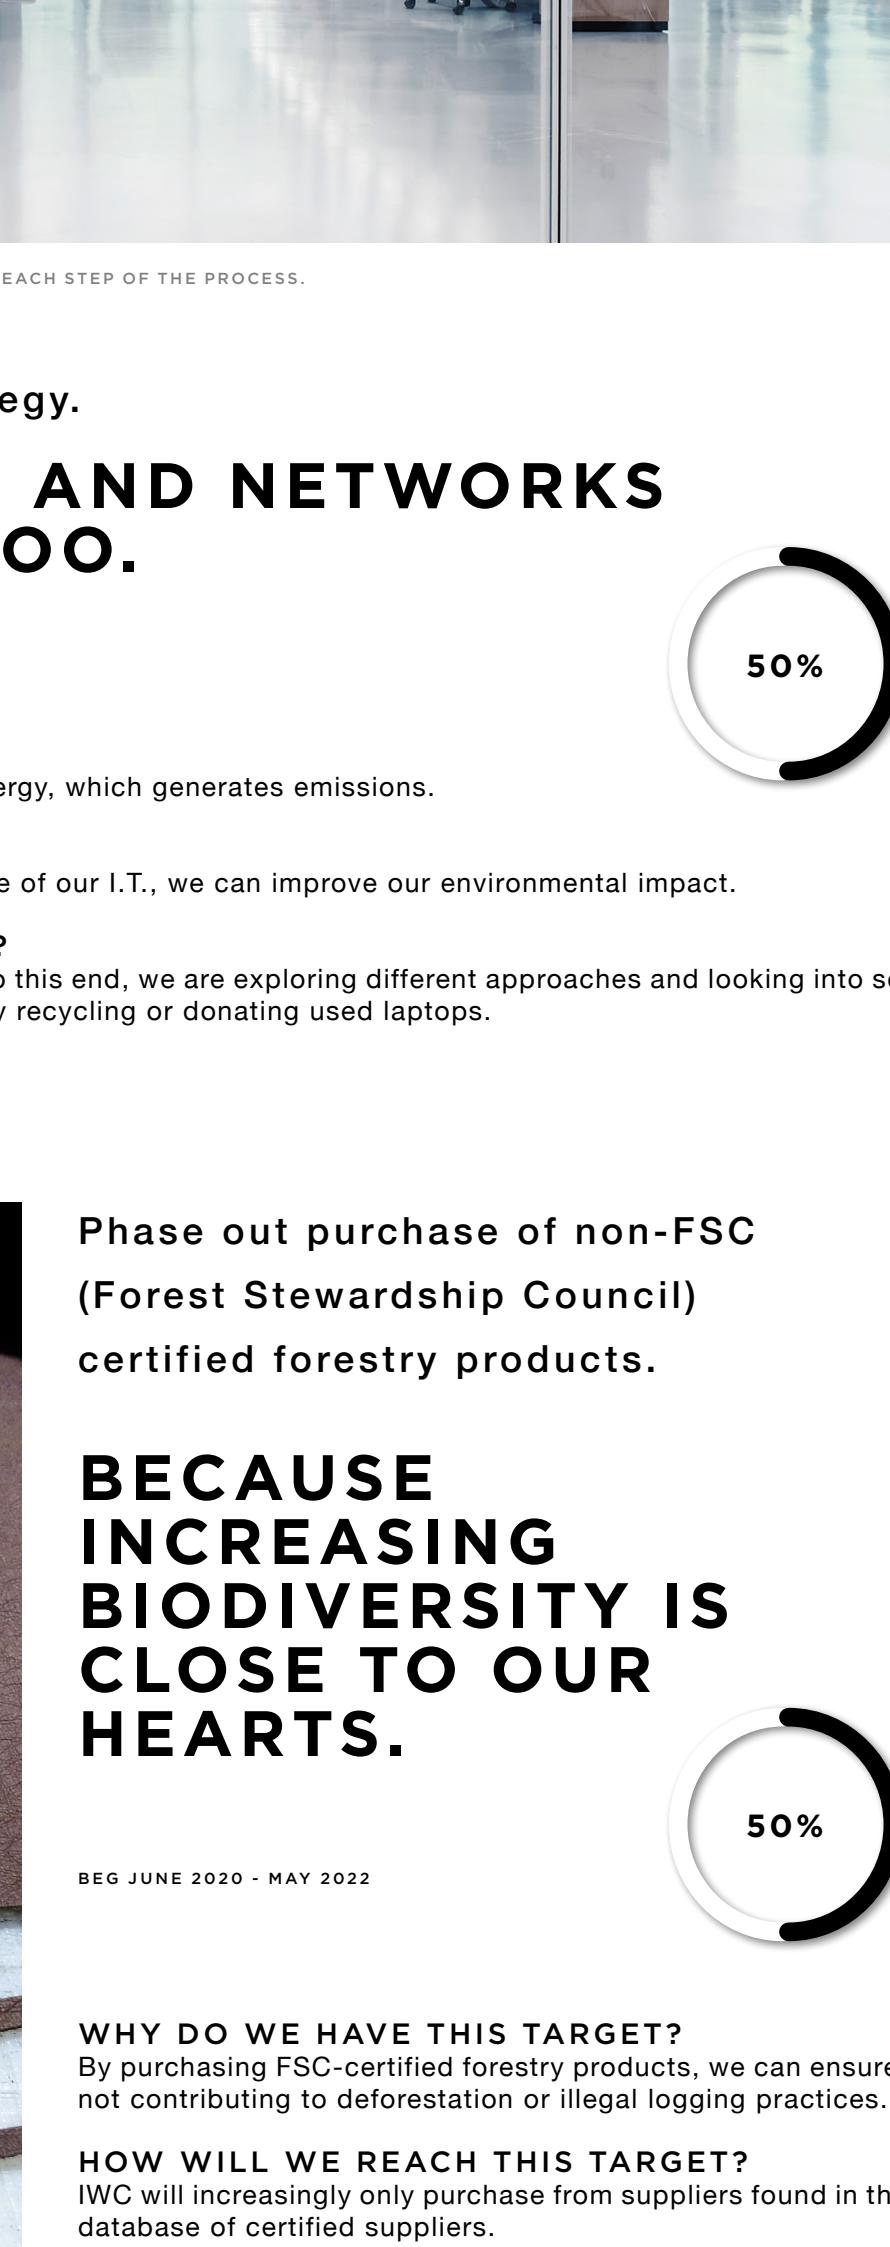

100%

WHY DO WE HAVE THIS TARGET?

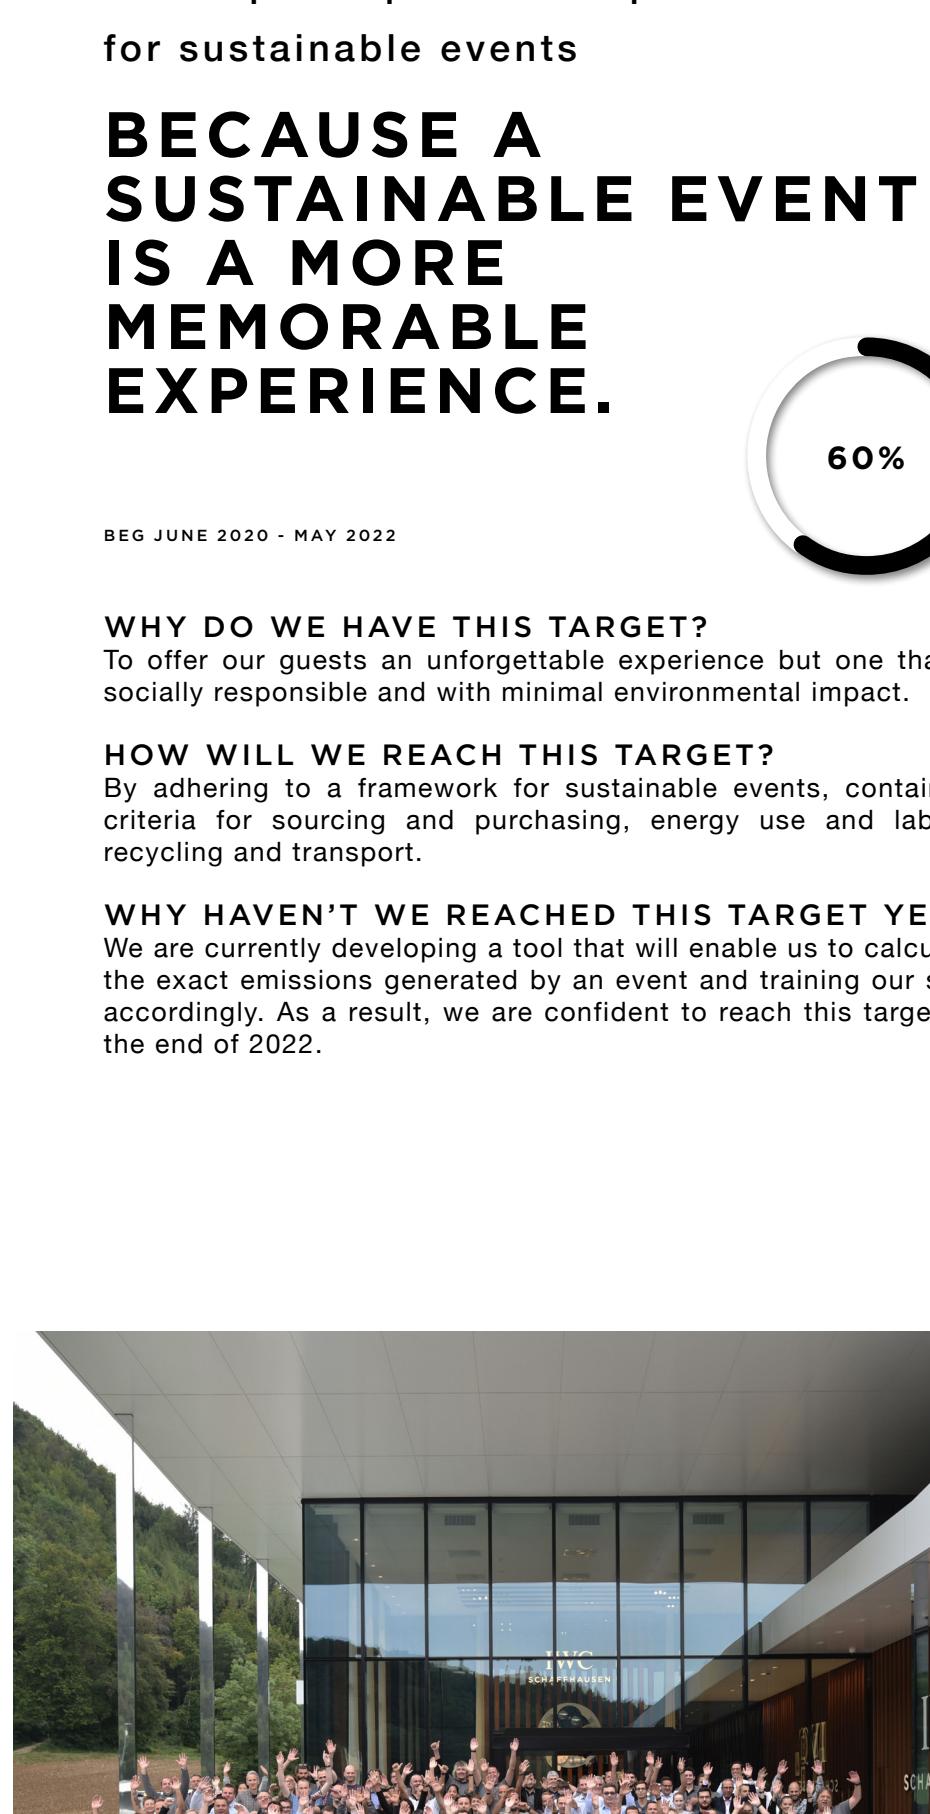

To eliminate the growing number of greenhouse gas emissions and promote renewable energy, thus lessening a cause of climate change and global warming.

HOW DID WE REACH THIS TARGET?

Wherever possible, we have purchased renewable energy directly. In all other cases, we have acquired Energy Attribute Certificates (EAC) issued by South Pole, a social enterprise specializing in developing emission reduction strategies.

THE IWC MANUFAKTURZENTRUM IS POWERED BY 100% RENEWABLE ENERGY.

OUR MOVEMENTS ARE ASSEMBLED IN DEDICATED LINES, WITH A SPECIALIST ASSIGNED TO EACH STEP OF THE PROCESS.

Develop and implement a Green IT strategy.

BECAUSE COMPUTERS AND NETWORKS HAVE A FOOTPRINT, TOO.

50%

BEG JUNE 2020 - MAY 2022

WHY DO WE HAVE THIS TARGET?

I.T. hardware and use require a huge and growing amount of energy, which generates emissions.

HOW WILL WE REACH THIS TARGET?

Through considered choices in the purchase, use and end-of-life of our I.T., we can improve our environmental impact.

WHY HAVEN'T WE REACHED THIS TARGET YET?

We are currently assessing the scope of our Green IT strategy. To this end, we are exploring different approaches and looking into solutions such as the implementation of Cloud Computing. We are already recycling or donating used laptops.

Phase out purchase of non-FSC (Forest Stewardship Council) certified forestry products.

BECAUSE INCREASING BIODIVERSITY IS CLOSE TO OUR HEARTS.

50%

BEG JUNE 2020 - MAY 2022

WHY DO WE HAVE THIS TARGET?

By purchasing FSC-certified forestry products, we can ensure we are not contributing to deforestation or illegal logging practices.

HOW WILL WE REACH THIS TARGET?

IWC will increasingly only purchase from suppliers found in the FSC's database of certified suppliers.

WHY HAVEN'T WE REACHED THIS TARGET YET?

Due to the pandemic, boutique openings in Asia were delayed, and exchanging the furniture in boutiques around the world was challenging. However, we are on track to achieve this target by the end of 2022.

IWC'S PAPER-BASED STRAPS USE FSC-CERTIFIED CELLULOSE.

Develop and pilot a blueprint for sustainable events

BECAUSE A SUSTAINABLE EVENT IS A MORE MEMORABLE EXPERIENCE.

60%

BEG JUNE 2020 - MAY 2022

WHY DO WE HAVE THIS TARGET?

To offer our guests an unforgettable experience but one that is socially responsible and with minimal environmental impact.

HOW WILL WE REACH THIS TARGET?

By adhering to a framework for sustainable events, containing criteria for sourcing and purchasing, energy use and labour, recycling and transport.

WHY HAVEN'T WE REACHED THIS TARGET YET?

We are currently developing a tool that will enable us to calculate the exact emissions generated by an event and training our staff accordingly. As a result, we are confident to reach this target by the end of 2022.

THE FUTURE OF MOBILITY.
